September 17, 2025

Dear Mr. Davey:

We are writing to you today from the Hanscom Field Advisory Commission (HFAC). Legislation establishing HFAC in 1980 states in Section 2 that, “The Hanscom Field Advisory Commission shall have the following duties together with all duties incidental thereto or necessary for the performance thereof: 1) to act as an advisory commission for review and reaction with regard to decisions relating to Hanscom Field and the Hanscom Area, including but not limited to land use, noise abatement and transportation needs as outlined in the Hanscom Field Master Plan.”

At our regularly scheduled meetings of July 15, 2025 and September 16, 2025, the Hanscom Field Advisory Commission (HFAC) discussed the utilization of Hanscom Field for Immigration and Customs Enforcement activity. Our understanding is that ICE flights have departed and landed at Hanscom Field for several months in 2025, then this activity was halted. However, it has come to our attention that ICE flights again resumed on September 5 we believe they are continuing daily.

In order for the HFAC to properly carry out our charge, we must have information in advance of any and all ICE activity on Hanscom Field. We call upon Massport to obtain and send us flight information in a timely manner, from both ICE and the Hanscom FBOs, including dates, times, and type of aircraft.

We thank you for your cooperation in this matter.

Sincerely,

*Margaret Coppe*
